

## ASG AND SMS TEAMS TAKE OUT MULTIPLE INTERNATIONAL INDUSTRY AWARDS

ASG Group (incorporating SMS Management & Technology) have been presented with two separate international awards – the IIBA Corporate Leadership Excellence Award and Marval Service Management Professional of the Year.

The newly integrated ASG Group have been recognised for their achievement across multiple IT Service Management areas.

Dan Borgese, a consultant with ASG has been awarded “Service Management Professional” of the Year for APAC by Marval at a conference in the UK. Dan was recognised for his achievements at the Department of Premier and Cabinet, restructuring the Service Portfolio to facilitate service brokerage within the South Australian Government.

SMS also accepted the IIBA Corporate Leadership Excellence in the Advancement of Professional Development in Business Analysis Award at the 2017 Building Business Capability Conference in Orlando, Florida. The award recognises the organisation that has consistently demonstrated the highest level of support and advancement of the business analysis profession.

“The foundation of our newly expanded ASG Group is the first-class capabilities of our people,” said Mr Langenbach. “These awards recognise both the strength and breadth of our expertise as a significant player in the Australian IT Services landscape.”

ASG Group acquired SMS Management & Technology on 27 September 2017. ASG is nearing the completion of integrating the two business, creating an organisation with over 2,000 staff and \$500 million in revenue.

“Together with the financial backing of Nomura Research Institute (NRI), we are confident that we now have a merged operating model with the scale to tackle the most complex of projects,” said Mr Langenbach. “In building the new ASG, we have been very deliberate to ensure that we maintain our in-built entrepreneurial spirit. It’s how we do things differently.”

ASG are also in the process of bringing the two organisations together under a refreshed ASG brand, encapsulating the organisation’s improved ability to deliver a complete digital transformation service.
